

Solid Waste Master Plan Capacity Analysis

John Fischer, MassDEP
Solid Waste Advisory Committee
October 26, 2017

Goals

- Analyze and define capacity on annual basis for:
 - MSW and C&D
 - Other materials managed in solid waste system
 - Recyclables
 - Organics
 - Reusable materials
- Identify under utilized capacity or capacity that can grow
- Inform development of SWMP policies

Facilities Covered

- Solid Waste Facilities
 - landfills, combustion facilities, C&D processors, transfer stations
- MRFs, other recycling facilities
- Out of state backhauling
- Compost, AD facilities
- Farms taking food for animal feed
- Food donation & rescue
- Reuse

Information to Obtain

- Management capacity – permitted, operational, or both
- Most recent data publicly available
- Sources
 - DEP permits, reports
 - Facility surveys/calls
- Qualitative information
 - E.g., rail connections

Time & Budget

- Issue RFQ – Fall 2017
- Award contract – Winter 2017
- About 6 month project timeframe
- Estimated budget - \$50,000
- Contractor resources supplemented by MassDEP staff time
